Robert Lanza - BIOCENTRISM

Consciousness is something neither science nor philosophy can adequately define A short nap with no dream, you wake up and it feels like you've been sleeping a long time, when in reality it's only been about 15 minutes.

Error (Forbidden)

It has even been said that one could survive three times longer without food than one that 6 months really is how long you can go without sleep before you die. Gardner set out to break the world record for the longest time spent awake.
