Conversely theory mak-ing extends the concrete, sensory, basis of the model into the universality and precision of theory as abstraction. N Opening at random I get lucky with the entry 'concept'. The assumption of omniscience that denies reality ensures that the morality thus engendered is a function of psychosis.

Traumaiswithoutdoubtoneofthemostpopularmodernsubjectmattersinside No experience exactly matches a past experience; [the] scientific deductive system and its abstractions, or the model and its associated images, can only be an approximation to the realization and vice versa. He seems to suggest that this clarity is available only on the basis of sufficient personal analysis, experience of life and clinical experience. His confusion between model and theory can be seen .

NoMatchforMySaviorbyE.Itseemstomethatalexicographermightputatthed it seems to me that the value of this book is in the breadth

and intensity of the author's comprehension of the whole of Bion's canon, if I may so designate his oeuvre. He has worked in private psychoanalytic practice since having previously worked with psychotics in a traditional in-patient clinic, as well as in group-oriented community psychiatry, including epidemiology of mental disorders, in the local Public Health School.
