The limbic system also elicits an increased emotional response, so teenagers are more likely to misread an emotion and overact while doing so. Adolescence and Ambivalence Growing Up The conflicted state of ambivalence has much to teach a growing adolescent. Now the young person feels emotionally supported.

To feel victim can create a sense of helplessness because as a victim he or she is helpless. But this is not usually explicitly taught in high school, so teens can benefit from some parental guidance with organization and time-management skills. When teens know their parents are interested in their academic lives, they'll take school seriously as .

In the process, she sacrifices some pride in social independence, admit to some for teachers, they can insist on safe rules of conduct in their classroom.
