Lockhart is not very practicality-oriented, which makes sense for a mathematician, and at times this made his writing less convincing. Mar 26, Diane rated it it was ok Shelves: View all 5 comments.

I often wonder what our mathematics would be like if humans had the anatomy of a bat. Skip to content Skip to search. Beethoven could easily write an advertising jingle, but his motivation for learning music was to create something beautiful. By helping them to refine their arguments and creating an atmosphere of healthy and vibrant mathematical criticism.

I had for the most part quite good math teachers in my public school education. very young children can invent songs, and they haven't a clue what key it is in or what type of meter they are using. Sorry for the enthusiasm.
