Item location see all Item location. In iPhoto, go to preferences, click the General icon, and from the Edit Photo pop-up menu choose In application; then select Photoshop Elements in the dialog that appears.

Let the computer do the work for you, analyzing photos and correcting them automatically. So, for example, if a photographer friend of yours uses Photoshop extensively and has created an action that resizes an image and adds a border and photo credit, you could run that action in Elements instead of performing each step. So, I went back to Bridge.

The implementation of the Spot Healing Brush in Photoshop Elements is limited. iPad mini covers iOS 7. Continue shopping Checkout Continue shopping.
