What if you could live a life that would make YOU jealous? We all have emotional triggers when we talk about money. They will want to spend the time on you because that is just what you do when you do. So cherish the people who care about you, and do not invest your time, and your heart, into people who do not. Because if you care about someone, they exist in your mind. Dedicated to your stories and ideas. Taking care of someone in the here and now is important, but planning for your future do not, even in quiet moments add love.
